EXPERIENCE

International Micro Village Inc Internship/OJT

International Micro Village, Inc. (IMVI) in the Philippines is a premier IT solutions provider, specializing in networking, cybersecurity, and communication technologies for businesses.

PROJECT EXPERIENCE

Voting System iBits PUP (Rebase system)

The voting system used for PUP candidates for IBITS ensures a fair and transparent selection process. It leverages advanced technology to accurately capture and count votes, guaranteeing the integrity of the election results.

Ehalalan

The eHalalan voting system offers high school students a secure and efficient way to participate in their school elections. By using advanced digital technology, it ensures accurate vote counting and promotes democratic engagement among students.
